DETAILED ACTION

Claim Rejections - 35 USC 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- 2. Claims 1-4are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- a. In Claim 1, the phrase, 'wherein the pH value of a 1 wt% methanol solution is within the range of 4.5 to 6.8' is unclear and indefinite. It is unclear how the pH value ties into the ultraviolet-curable composition because it is not directed to any of the films.
- b. In claim 4, the phrase, 'a protective film comprising a cured film of the ultraviolet-curable composition' is redundant. All of the subject matter is contained within claim 1.

Claim Rejections – 35 USC § 103(a)

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Suzuki et al. (U.S. 5,573,831).

Application/Control Number: 09/768,178

Art Unit: 1774

5. Suzuki discloses an optical recording medium comprising a substrate, recording layer, reflective layer and protective layer where the protective layer is formed of an ultraviolet curable resin (abstract and column 2, lines 31-37) where the reflective layer contains metals such as Ag (column 3, line 67 through column 4, line 1). Suzuki discloses the composition comprising monomers or oligomers (column 4, lines 15-17) where the monomers contain a carboxyl group (column 6, lines 43-44). Although Suzuki does not disclose films, per se, layers are analogous to films. Suzuki does not disclose the wt percent of the carboxyl group. It would have been obvious to one of ordinary skill in the art to optimize the components of the polymeric group(s) because Suzuki teaches adjusting the monomer by varying the solvents they are dissolved in (column 6, lines 45-51).

Claim Rejections - 35 USC § 102(b)

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 7. Claims 1 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 1058250.
- 8. EP '250 discloses an optical recording medium comprising a recording layer, a reflective layer comprising Ag, a cured protective layer and ultraviolet curable material (abstract and page 3, lines 32-37) where the layers are analogous to films.

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lawrence Ferguson whose telephone number is (703) 305-9978. The examiner can normally be reached on Monday through Friday 8:30 AM - 4:30PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia Kelly can be reached on (703) 308-0449. Please allow the examiner twenty-four hours to return your call.

The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9310 for regular communications and (703) 872-9311 for After Final communications. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-2351.
